

(Detail API description could see [here](#))

## **New APIs**

### **1. POST <http://18.222.103.240/api/project/register>**

#### **Example**

Post the following to the API:

username=test&password=1234

### **2. POST <http://18.222.103.240/api/project/login>**

#### **Example**

Post the following to the API:

username=test&password=1234

### **3. Get [http://18.222.103.240/api/project/get\\_friends](http://18.222.103.240/api/project/get_friends)**

#### **Example**

[/api/project/rooms?&user\\_id=1](#)

### **4. GET <http://18.222.103.240/api/project/messages>**

#### **Example**

[/api/project/messages?curruser=34&targetuser=23](#)

### **5. POST <http://18.222.103.240/api/project/messages>**

#### **Example**

Post the following to the API:

[/api/project/messages?curruser=34&targetuser=23&message=hi](#)

### **6. GET [http://18.222.103.240/api/a3/get\\_chatrooms](http://18.222.103.240/api/a3/get_chatrooms)**

#### **Example**

[/api/a3/get\\_chatrooms](#)

## **7. GET [http://18.222.103.240/api/a3/get\\_messages](http://18.222.103.240/api/a3/get_messages)**

### **Example**

*/api/a3/getmessages?chatroomid=1&page=1*

## **8. POST [http://18.222.103.240/api/a3/send\\_message](http://18.222.103.240/api/a3/send_message)**

### **Example**

Post the following to the API:

*chatroomid=1&userid=1&name=test&message=hi*

## **9. POST [http://18.222.103.240/api/project/add\\_friend](http://18.222.103.240/api/project/add_friend)**

### **Example**

Post the following to the API:

*requestid=35&receivenickname=CHENN*

## **10. GET <http://18.222.103.240/api/project/getfriendrequest>**

### **Example**

*/api/project/getfriendrequest?user\_id=35*

## **11. GET <http://18.222.103.240/api/project/acceptorrefuse>**

### **Example**

*/api/project/acceptorrefuse?operation=1&requestname=HUBing&receiveid=47*

## **12. POST <http://18.222.103.240/api/project/posts>**

### **Example**

Post the following to the API:

*userid=23&postscontent=todayisagooodday*

## **13. GET <http://18.222.103.240/api/project/posts>**

### **Example**

/api/project/posts?user\_id=23

#### **14. POST http://18.222.103.240/api/project/like**

##### **Example**

Post the following to the API:

*userid=47&postid=18*

#### **15. POST http://18.222.103.240/api/project/dislike**

##### **Example**

Post the following to the API:

*userid=47&posyid=18*

### **APIs used in Public Chatroom**

#### **16. GET http://18.191.234.51/api/a3/get\_chatrooms**

##### **Example**
